MTM ENERGY CONSERVATION CELL ANNUAL REPORT: 2020-2021

Faculty In Charge: Ms. Deepthi TK

Joint Coordinator: Mr. Dipesh EP

Energy Conservation Cell is one which aims at creating a more secure future from the point of view of energy needs. The members of the cell strive to generate awareness regarding the necessity to shift focus on conservation of energy and the cell has also various programs to create awareness among the students and staff of our college. The cell started functioning in the year 2021 and it is progressing leaps and bounds and hopes to continue doing so for years to come.

Best Out of Waste Competition

In order to make the students aware of uses of waste material, and to give them a lesson on reducing waste to save our future, a 'Best out of waste' competition was organized by Energy Conservation Cell on 25 June 2021 Friday. The competition was open to all the students of MTM College. 13 students participated in the programme. Participants enthusiastically participated in the event and made beautiful and creative crafts from different waste materials within the given time frame. The programme was managed completely through the medium of WhatsApp. Students were asked to send their waste material craft to Ms. Deepthi, Energy Conservation Cell Coordinator. The programme was successful and the objectives of the programme were achieved as it helped the students to understand the significance of the more relevant 3 R's – reduce, reuse and recycle.

The winners of the event were:

1st Position: Muhaseena Musthafa (5th BA English)

2nd Position: Muhsina. E M (5th B Com)

3rd Position: Shimna PV (5th BA English)

Energy Quiz

In order to evaluate the students' knowledge on energy, an 'Energy Quiz' competition was organized by the Energy Conservation Cell on 29 July 2021 Thursday. The competition was open to all the students of MTM College. 16 students participated in the programme. The programme was managed completely through the medium of WhatsApp. A WhatsApp group was created for the registered participants and they were given a google form link to participate in the competition. All the participants enthusiastically participated in the competition and submitted their responses in the given time frame. The programme was successful and the objectives of the programme were achieved as it helped the students to understand more about energy resources, various forms of energy and other important informations about energy.
