# Annual Report

**2021 June to December**

**2022 January to May**

Rapid advances in Information and Communication Technologies are changing the library and information services drastically. Besides this, expectations of the users have also risen manifold. Libraries are not mere spaces anymore; they are much more than that. It has become a challenge for library management to keep pace with changing information packaging and delivery methods on one hand and meet the user expectations on the other. MTM College Library has been trying to do the same over the years and as per feedback from its patrons has been quite successful in this venture.

Like previous years, this year also focus was on the strengthening of collection and implementation of latest information and communication technologies in its services.

## **Librarian's message**

Libraries are an essential part of the fabric of college life. Although many of our services continued throughout the year, even during the Spring lockdown forced by the Covid-19 pandemic, the closure of study space and the lack of access to our print collections was a blow to both staff and students. By August we were preparing Covid-secure study space and adapting to a “new” normal.

I would like to pay tribute to all library staff who coped with the challenges of this extraordinary year with good humour, patience and their customary professionalism.

Our response to the pandemic has accelerated these trends – widely known as the “digital shift”. The Library will continue to be a blend of physical and digital services, but the increasing emphasis will undoubtedly be on the latter.

I have heard many expressions of thanks for the efforts library staff have put in to ensure access to the best possible resources and support for both learning and research throughout the academic session. I am immensely proud of all that has been achieved this year and I would like to record my thanks also.

2021–22 was a very strange and challenging finale to my career in libraries. However, as with all previous years, it has been a pleasure and a privilege to have been part of the MTM college library and in particular to work with such talented Library colleagues!
