

MTM COLLEGE OF ARTS SCIENCE AND COMMERCE, VELIANCODE
NATIONAL SERVICE SCHEME, MONTHLY REPORT.

(Additional Paper)

Unit No: SF16(Malappuram)

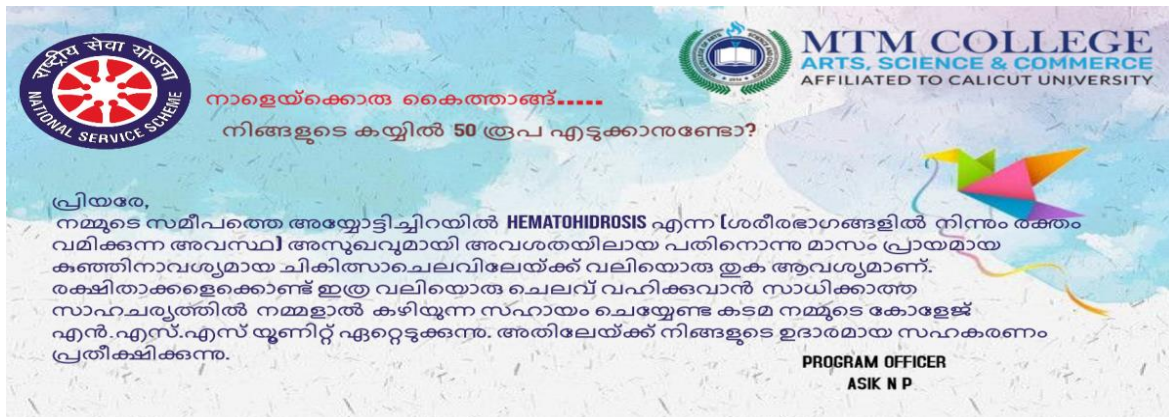

Month: MAY

A helping hand for tomorrow's future(01/05/2021)

Taking care of a chronically ill child is one of the most draining and difficult tasks a parent can face. Beyond handling physical challenges and medical needs, you'll have to deal with your child's emotional needs and the impact that a prolonged illness can have on the entire family. Luckily, this tough balancing act doesn't have to be done alone as support from other groups, social workers, and family friends often can lend a helping hand.

NSS Unit of MTM College, has collected an amount of Rupees 25000 for the medical treatment of a 11 month old child. As he is suffering from a disease named Hematohidrosis, which results in the blood spilling through different parts of the body. Ayyottichira is his place which is near by our college.

It's really great that together our college students and teachers contributed an amount of minimum Rupees 50 for his Medical purpose; it was a great relief to their parents.

Drawing Competition(12/05/2021)

Historically, as well as today, nurses are at the forefront of fighting epidemics and pandemics. Providing high quality and respectful treatment and care. They are often the first and sometimes the only health professionals that people see and the quality of their initial assessment, care and treatment is vital.

The Covid-19 pandemic is a stark reminder of the vital role nurses play. Without nurses and other health workers, we will not win the battle against outbreaks; we will not achieve the Sustainable Development Goals or universal health coverage.

On this occasion of The International Day of Nurse, NSS Unit of MTM College conducted a drawing competition. Among many students of the college, Ramseena of 6th BCom B was selected for the first position. Ramseena VP 4th BCom Finance as the runner-up and the third position was shared between Pooja Jayan 3rd BSc and Muhsina 4th BCom CA.

The image shows two posters for the National Service Scheme (NSS) drawing competition. The left poster is a flyer with a red background and a cartoon girl drawing a nurse. The right poster is a results board with a light blue background and photos of the winners.

Left Poster (Flyer):

- Logos: MTM COLLEGE ARTS, SCIENCE & COMMERCE AFFILIATED TO CALICUT UNIVERSITY and NSS UNIT - SF-16.
- Text: National Service Scheme, MTM College of Arts, Science & Commerce in association with IQAC.

- Winners:
 - 1st: RAMSEENA, 6TH B.COM B
 - 2nd: RAMSEENA VP, 4TH B.COM FINANCE
 - 3rd: POOJA JAYAN, 3RD BSC CS and MUHSINA. M, B.COM CA 4TH SEM
- Text: CONGRATS TO ALL PARTICIPANTS

Dry Day Celebrations (16/05/2021)

As the novel corona virus tears around the world, it's exploiting our biggest weaknesses, from creaking health care systems to extreme social inequality. Its relationship with one pervasive and neglected problem, however, is more tangled. Air pollution has intensified the pandemic, but the pandemic has temporarily cleaned the skies.

NSS Unit of MTM College, decided to start cleaning the home surroundings. As it is summer season cleaning can be done very easily. Most of the students participated in this venture conducted on 16th May, 2021. We were also the part of Dry Day celebrated by the Kerala government.

Covid vaccination help desk 17-05-2021

Equitable access to safe and effective vaccines is critical to ending the COVID-19 pandemic, so it is hugely encouraging to see so many vaccines proving and going into development.

Safe and effective vaccines are a game-changing tool, but for the foreseeable future we must continue wearing masks, cleaning our hands, ensuring good ventilation indoors, physically distancing and avoiding crowds.

But it's not vaccines that will stop the pandemic, its vaccination. We must ensure fair and equitable access to vaccines, and ensure every person receives them and can roll them out to protect their people, starting with the most vulnerable.

As part of it NSS Unit of MTM College and Janaseva kendram together started a Covid 19 Vaccination registration Help desk. It will be available from morning 9 to evening 4 from Monday to Saturday. Which is open exclusively for the people near by the MTM College area.

Blood Donors Club (19-05-2021)

The gift of blood is the gift of life. There is no substitute for human blood. Every two seconds someone needs blood. Because all stages of the manufacturing process (donor selection, collection, testing, component preparation, storage, and distribution) are so highly regulated, it has become increasingly difficult for the average hospital to maintain a blood donation operation. For this reason most blood is collected by blood centers, rather than hospitals.

As a small step to this, NSS Unit of MTM College Veliyankode has started a Blood Donars Club; maximum support from the part of students’ can be seen through their participation.

World No Tobacco Day

Adolescents are more likely to initiate tobacco use if they lack the awareness of tobacco and related industry tactics deliberately employed to hook them on nicotine and tobacco products and if they lack the skills to say no to nicotine and tobacco.

Adolescents may try some form of tobacco or nicotine products when offered as a result of direct peer pressure, influenced by advertising, promotion and sponsorship, or simply as a result of not being equipped with the knowledge or skills to refuse it. So giving our target audience (NSS Students) the opportunity to expose industry tactics observed in their community, practice the act of refusing tobacco products, shisha or e-cigarettes in a safe environment using an entertaining medium, and develop advocacy plans for rejecting industry manipulation and creating a tobacco-free generation.

With this objective NSS Unit of MTM College, in accordance with World No Tobacco Day (WNTD), convened an evening seminar on May 29th Saturday 2021, aimed to create a future direction for tobacco countermeasure. Dr. Dayal Narayan, MD, Associate Professor and HoD Department of Psychiatry Govt. Medical College Manjeri were the resource person for the seminar. A great participation was also seen from the side of NSS students.
